- **Onsight Performance Review - p.255**
- **Multipitch Climbing Style Evaluation - p.264**

MODEL BIOS

PAIGE CLAASSEN

For me, training is all about mental dedication. I have to be both motivated to work hard and confident in my abilities. With these two things, I can push my body to new limits. It's quite amazing the work our bodies are capable of, if only we can set aside the pain and mental barriers of training. With practice, I think training can actually be quite fun, and even addicting. Once I put in that effort and see the results afterward, I understand the payoff of my hard work, and this pushes me to keep training harder and harder.

There's also an important balance with training. Sometimes it's important to push yourself through lack of motivation. It's easy to be lazy at times and skip workouts or not try as hard. Having a specific goal to work towards is helpful when motivation is low. That said, it's important to rest as well. For me, lack of motivation is often my body's way of telling me to back off. Hard training can be rough on your body, and it's important to allow yourself time to heal.

NOTABLE ACHIEVEMENTS:

- 2007 USA Climbing SCS National Champion
- Repeats of *Grand Ol' Opry* (5.14b/c), *To Bolt or Not to Be* (5.14a), *Zulu* (5.14a), and *Motley Crux* (5.14a)
- Flashes of *Flour Power* (5.13b), and *Gracias Fina* (5.13b)
- First ascent of *Digital Warfare* (5.14a)

TOMMY CALDWELL

Training is central to achieving any athletic goal. It gives an outlet for our drive, and provides the strength and technical practice we need to improve. The way we go about our training, and the intensity in which we are able to bring to our climbing are what make us our best.

NOTABLE ACHIEVEMENTS:

- Established *Flex Luther*, first 5.15 in North America
- First Free Ascent of El Capitan's *West Buttress* (VI, 5.13c), *Lurking Fear* (VI, 5.13c), *Dihedral Wall* (VI, 5.14a), and *Magic Mushroom* (VI, 5.14a)
- First Free Ascent of *Dunn-Westbay* (VI, 5.14a) on The Diamond, Longs Peak CO

ABOUT THE AUTHORS

MICHAEL ANDERSON

Mike lives in the United States with his wife Janelle and boys Lucas and Axel. A dedicated climber since the early 1990s, he bought his first hangboard in 1997 as an occasional 5.11 redpointer and immediately began researching and experimenting with training. From these humble beginnings, Mike has progressed steadily to 5.14 redpoints and 5.13 onsights. Mike is a strong proponent of expanding the horizons of free climbing, especially on long multi-pitch routes. Some of his First Free Ascents include *Touchstone Wall* (5.13, IV), *Space Shot* (5.13 IV) and *Thunderbird Wall* (5.13 VI) in Zion, and *Arcturus* (5.13, VI) on Yosemite's Half Dome. Mike's favorite crags are Smith Rock, Zion, the Red River Gorge and Lander, Wyoming.

MARK ANDERSON

Mark lives in Evergreen, Colorado with his wife Kate and their children Logan and Amelie. Mark has been an avid climber for more than 20 years, and enjoys all types of climbing, from bouldering to high-altitude alpinism. While he is a world-traveling sport climber with numerous 5.13 onsights and cutting edge 5.14 repeats, Mark has also established numerous first ascents, including the First Free Ascent of Zion's *Spaceshot* (5.13a, IV), and all three of Shelf Road's 5.14 sport climbs. Mark is the author of the *Lazy H Climbing Club* training blog, and designed the Rock Prodigy Training Center as a member of Trango's Pro Team.

The authors Mike (Right) and Mark Anderson were destined to be among the mountains.

FIXED PIN

FP promotes climbing ethics that benefit the long-term sustainability of the climbing community by hosting trail days, replacing manky hardware, partnering with local climbing coalitions, and collaborating with government agencies to improve policies from raptor closures to opening of formerly closed crags.

FP conducts business in a socially, economically and environmentally sustainable fashion by printing in the U.S. on recycled paper whenever possible, donating to the Access Fund and the American Alpine Club, and continuing to stay involved with the preservation of areas for which we publish guidebooks.

TANTA

Tailor-made for training.

Handcrafted quality. Subtle downturn. Sessionable comfort. \$99.

Maximize Your Climbing Potential!

"This is the best climbing training book ever written...."

— Steve Bechtel, Certified Strength and Conditioning Specialist, climbstrong.com

"...*The Rock Climber's Training Manual* clearly lays out the details of how to train effectively to take your climbing to the next level."

— Tommy Caldwell, First Free Ascentionist of four El Cap Big Wall Free Routes

"The Andersons' experience as top-level athletes in the field, rather than just trainers in the gym, directly validates *The Rock Climber's Training Manual*...."

— Paige Claassen, US National Champion and 5.14 First Ascentionist

"No other training resource has benefited more climbers... a must-read for those looking to improve their climbing ability...."

— Ryan Palo, Dedicated Weekend Warrior and 5.14 First Ascentionist

"...If you're searching for the path to your next level, this is where you'll find it."

— Kris Hampton, Climbing Coach, powercompanyclimbing.com

"...If becoming a better, stronger, more consistently performing climber is your goal, then this is the book for you!"

— Matt Samet, 5.14 first ascentionist, former editor of *Climbing Magazine* and author of *The Climbing Dictionary*

"...an exceptional book... I'll definitely be referencing it during my next training period."

— Jonathan Siegrist, Professional Climber, 5.14+ First Ascentionist

WHETHER YOU CLIMB 5.9 OR 5.15, THIS BOOK SHOWS YOU HOW TO IMMEDIATELY AND CONTINUOUSLY IMPROVE YOUR CLIMBING, PROVIDING A STEP-BY-STEP, EASY TO FOLLOW ACTION PLAN USED BY ELITE CLIMBERS:

- Detailed schedules prescribe daily training activities for beginner, intermediate and advanced climbers
- Training programs are tailored for bouldering, sport and traditional climbing
- Eleven exercise protocols clearly describe each training activity in detail
- Over 200 full color illustrations demonstrate proper techniques
- Meticulously researched, incorporating the latest advancements in sport science
- Presents exercises that are proven to be effective for climbers of all abilities
- Includes ground-breaking coaching for Big Wall Free Climbing including training, strategy and tactics!

The Rock Climber's Training Manual updates and expands on the renowned "Rock Prodigy" training method that has helped climbers around the globe advance through the grades. Whether new to climbing or a seasoned veteran, this book describes exactly how to get stronger NOW and climb your dream routes.
